

Video of the Week – Missed this year’s Hannover Show? 10 key launches at the igus stand

At this year’s Hannover Show, visitors to the igus stand were introduced to the fascinating world of 108 exciting innovations and extensions to the igus product range.

These include smart plastics with predictive maintenance and iglidur plastic plain bearings, demonstrating their advantages over their metal counterparts, as well as the robolink modular kit and harnessed e-chains.

In this week’s video, Artur Peplinski, igus vice president, takes us on a whirlwind tour of the stand and highlights the 10 key launches for 2018.

To watch the video, please visit: www.igus.co.uk/hannoverhighlights18 For more information about igus, please visit www.igus.co.uk or call igus directly on: 01604 677240.

About igus:

Based in Northampton in the UK and with global headquarters in Cologne, Germany, igus is a leading international manufacturer of energy chain systems and polymer plain bearings. The family-run company is represented in 35 countries and employs 3.800 people around the world. In 2017, igus generated a turnover of 690 million euros with motion plastics, plastic components for moving applications.

With plastic bearing experience since 1964, cable carrier experience since 1971 and continuous-flex cable since 1989, igus provides the right solution based on 100,000 products available from stock with between 1,500 and 2,500 new product introductions each year. igus operates the largest test laboratories and factories in its sector to offer customers quick turnaround times on innovative products and solutions tailored to their needs.
